

- **You own or operate a service enterprise with direct customer contact** and would like to offer your clients a quick and easy connection to the internet? Then choose HOTSPLOTS Biz and enjoy additional monthly revenue.
- **You'd like to give your neighbours wireless internet access** while lowering the cost of your internet connection? Then go for HOTSPLOTS Fun and surf together with neighbours and friends. We control the connection and manage all the bills: Fair and secure. As a HOTSPLOTS provider, you surf for free – and you can even earn revenue while you're at it.
- **You install IT or telecommunications systems** and know customers who could really use HOTSPLOTS? As a partner, you'll always profit from referrals you make.

You can find additional information regarding the HOTSPLOTS business model and how to contact us at www.hotspots.de

hotspots GmbH is a leading provider of billing and management solutions for shared wireless internet connections. Founded in Berlin in 2004, the company ensures the smooth transfer of user fees from the end customer to the network and to HOTSPLOTS providers.

HOTSPLOTS offers custom-made WLAN billing solutions for cafés, hotels, gas stations, marinas and camping grounds. Even youth hostels, student and senior residences, libraries and hospitals stand to gain from HOTSPLOTS solutions. What's more, the company is even the ideal partner for those looking to establish not-for-profit neighbourhood networks and private WLAN communities.

HOTSPLOTS boasts strong IT and telecommunications partners as well as computer retailers on site, guaranteeing direct customer contact.

About HOTSPLOTS

**Wirelessly connected
at home or away**

Wherever you see HOTSPLOTS, it's easy to connect to wireless internet.

Just turn on your laptop, tablet PC or PDA, choose "HOTSPLOTS" WLAN from the list of wireless networks in the area, register for free, purchase credits if you need to and go! That's it.

Enjoy the convenience and the fascinating possibilities of mobile online communication.

With HOTSPLOTS, you can check emails, send information to colleagues or participate in web chats. Look up current stock prices, interesting holiday destinations, the best train or flight connections, cinema or theatre programmes and much much more ...

The prices for wireless internet access via HOTSPLOTS are fair.

Providers decide themselves which rate they'd like to offer customers. More and more locations are offering HOTSPLOTS as a free service for a fair neighbourhood flat rate or for hourly rates between 0.50 EUR and 5 EUR.

Try it yourself, and ask about HOTSPLOTS on site. You can pay comfortably with cash or online via PayPal, money transfer or credit card. HOTSPLOTS – that's fair rates, no hidden additional costs and billing to the exact cent, megabyte or minute.

You don't need any special software to access the internet with HOTSPLOTS.

All current operating systems allow you to choose the HOTSPLOTS wireless signal with which you can connect your laptop, PDA or WLAN mobile phone to the internet.

**Online on the go
with HOTSPLOTS**

**Surf, chat and
email wirelessly**

**Fair and simply
on the internet**
