

HOTSLOTS
TV to go

Watch TV
anytime, anywhere

My TV Program

Always there

HOTSLOTS TV to go brings the latest TV entertainment via your WiFi hotspot to the terminals of your guests. For vacationers at the campsite, as an added perk to dormitories, or to bridge driving or waiting times – the uses are endless.

A selection of TV shows is always available offline on the hotspot router or the HOTSLOTS Appli-ance. This protects your available data volume and allows you to use it even if there is currently no Internet connection.

Individual offer – direct customer contact

National and international TV shows, documentaries, films, and shows are available directly in the app and can be viewed within the reach of your WiFi hotspot. After the user downloads the content into the app, the broadcasts can be viewed even outside the hotspot area.

You can (after consultation) include individual content in the app of our partner dailyme TV. Offer users of your hotspot your customer magazine, integrate your own video content (promotional films), or engage directly with users by adding a newsletter subscription form or feedback form.

Digital content is **automatically updated every day** as new data becomes available. The content offerings can be customized as needed and the interface of the app can be presented in your own design on the customers' devices. This way you offer your guests the best **entertainment with recognition value!**

Individual Stationary & Mobile Solutions

Mobile entertainment in buses and trains

HOTSPLOTS TV to go adapts to your circumstances. The solution is already in use as a supplement to the WiFi offered via mobile hotspots in public transportation such as coaches, buses, and trains.

Mobile data can be updated on the road via the LTE connection, or you can use the option of setting up a "WiFi petrol station" in your depot for regular updates. The vehicles can load up-to-date content without burdening the LTE data limit.

Today, it is important for passengers to have WiFi service on board. Especially on routes with poor mobile reception, the additional on-board entertainment makes it possible to improve passenger satisfaction. With HOTSPLOTS TV to go, the on-board offer is updated daily, so that an attractive portfolio is always available for commuters or for multi-day trips. As a result, for passengers, longer trips speed past.

Patient entertainment improves hospitals WiFi

Especially for longer stays in hospitals, rehabilitation facilities, and clinics, a suitable entertainment option is often in demand. With the flexible options in the app of our partner dailyme TV, you can offer your patients and visitors entertainment and communication channels via HOTSPLOTS TV to go.

You can use HOTSPLOTS TV to go to:

- Include your own content (e.g. patient newspaper or promotional video),
- Include own or licensed health videos,
- Make the map of your area available in the app,
- Include small games or TV programs for children in the options.

The Perfect Match

HOTSPLOTS TV to go complements every WiFi hotspot with an attractive and cost-effective entertainment option. With stationary hotspots in clinics, youth hostels, dormitories, or holiday apartments, as well as with hotspots in buses and trains, HOTSPLOTS TV to go offers a wide range of entertainment options for hotspot users.

Technical requirements for stationary hotspots

To deploy HOTSPLOTS TV to go, you will need a hotspot equipped with HOTSPLOTS WiFi and at least one Appliance M. The TV content is provided by our partner, dailyme TV GmbH.

Technical requirements for mobile hotspots

To deploy HOTSPLOTS TV to go, you need a hotspot equipped with HOTSPLOTS WiFi for vehicles and a mobile router (e.g. Bosch Coach MediaRouter or Netmodule hardware). The mobile routers are additionally equipped with a HOTSPLOTS Media Stick. The TV content is provided by our partner, dailyme TV GmbH.

Benefits of HOTSPLOTS TV to go

- **Attractive Entertainment** – News, Documentaries, TV Shows, Movies, Children's Programs
- **Available Offline** – Local content also available without Internet connection (offline). The available data volume is spared.
- **Various Applications** – Indoor, outdoor, stationary, or mobile
- **Individual Portfolio** – On request, we can provide your own content via the app (e.g. videos, customer magazine, feedback options)

To use HOTSPLOTS TV to go, you need to download the dailyme TV app. Please note that the app contains advertising.

Sounds interesting?

We look forward to hearing from you and would be happy to advise you.
